

CURRICULUM VITAE
William T. Riley, Ph.D.

Contact Information:

Office Address: National Institutes of Health
31 Center Dr., Room B1C19
Bethesda, MD 20892-2027

Office Phone: (301) 402-1146

E-mail: wiriley@mail.nih.gov

Education:

James Madison University: 1975 to 1979
Bachelor of Science
Summa Cum Laude with Distinction in Psychology
Majors: Psychology, Sociology; Minor: Criminal Justice

Florida State University: 1979 to 1981
Master of Science
Major: Clinical Psychology
Thesis: A Peer-pairing Intervention for the Remediation of Social Skills Deficit

Florida State University: 1982 to 1984
Doctor of Philosophy
Major: Clinical Psychology; Minor: Statistics
Dissertation: Compliance to Relaxation Training

Baylor College of Medicine: 1983 to 1984
Predoctoral Internship (APA approved)
Medical Psychology Track

Professional Experience and Academic Appointments:

National Institutes of Health 2015 to present
Bethesda, MD 20892

Positions: NIH Associate Director for Behavioral and Social Sciences Research;
Director, Office of Behavioral and Social Sciences Research

Duties: Responsible for the coordination and advancement of behavioral and social sciences research across the NIH. As Associate Director of Behavioral and Social Sciences, responsible for advising NIH leadership on behavioral and social sciences research.

National Cancer Institute 2012 to 2015
Bethesda, MD 20892

Positions: Chief, Science of Research and Technology Branch, Behavioral Research Program, Division of Cancer Control and Population Sciences

Duties: Serve as Chief of the Science of Research and Technology Branch responsible for the advancement and application of emerging methodologies, measures, theories, technologies, data harmonization, and transdisciplinary science approaches in cancer prevention and control.

National Heart Lung and Blood Institute 2009 to 2012

Bethesda, MD 20892

Positions: Program Director, Clinical Applications and Prevention Branch,
Division of Cardiovascular Sciences

Duties: Served as Health Scientist Administrator in the Clinical Applications and Prevention Branch of the Division of Cardiovascular Sciences. Managed grant portfolios in tobacco control and cardiovascular/respiratory disease risk reduction, including pre-application assistance and post-application monitoring. Responsible for encouraging research in these areas via workgroups, conferences, presentations, and publications. Responsibilities also included participation in the various committees and administrative functions of NHLBI and NIH, including chair, NIH mHealth Inter-Institute Interest Group (mHealth IIIG), and co-chair, NIH Tobacco and Nicotine Research Interest Group (TANRIG).

National Institute of Mental Health 2005 to 2009

Bethesda, MD 20892

Positions: Deputy Director, Division of AIDS and Health & Behavior Research
Chief, Health Behavior Change and Treatment Adherence Programs
NIMH Coordinator for Sleep Research
Science Officer, PROMIS Roadmap Cooperative Agreement

Duties: Assisted the Division Director in strategic planning and administration of the Division of AIDS and Health & Behavior Research. Responsible for the Health Behavior Change and Treatment Adherence research portfolios in the division. Managed research portfolios on health behavior change among those with mental disorders and mental health treatment adherence, including pre-application assistance and post-application monitoring. Responsible for encouraging research in these areas via workgroups, conferences, presentations, and publications. Responsibilities as Coordinator for Sleep Research at NIMH included coordination and promotion of sleep research within the various divisions of NIMH and representation of NIMH on the trans-NIH Sleep Research Coordinating Committee. Served as science officer (acting chief science officer from 2006-2007) of PROMIS (Patient-Reported Outcomes Measurement Information System), an NIH Roadmap initiative utilizing computerized adaptive testing and item response theory to assess patient-reported outcomes. Responsibilities also included participation in the various committees and administrative functions of NIMH and NIH.

George Washington University 2004 to present

Washington, DC

Position: Professorial Lecturer in Prevention and Community Health, George Washington School of Public Health and Health Services

Duties: Teaching assignments have included MPH class in Theories of Health Behavior and Health Promotion, and summer topics classes on Technology

Innovations in Health Promotion, and the Development and Evaluation of Mobile Health Applications.

PICS, Inc. 1999 to 2005
Reston, VA 20191

Position: Director of Research

Duties: Responsibilities included the management of the research division of PICS, consisting of approximately a dozen research scientists, research assistants, and technical developers with annual grant revenues of approximately three million per year. Responsible for the conceptual design and evaluation research of computer-assisted health behavior assessments and interventions. Actively managed a range of projects including smoking cessation and prevention, exercise adherence, dietary assessment, medication monitoring, insomnia, mental health treatment dissemination and evaluation, and HIV risk assessment and prevention. Responsible for SBIR grant and contract submissions as well as grant administration and general research administration, reporting, and fiscal management of direct costs. Performed conceptual or functional designs for programs and prototype testing. Responsible for development and execution of experimental designs, recruiting and screening strategies, measurement procedures, statistical analyses, and interpretation/reporting of results in presentations and publications.

Virginia Commonwealth University 1989 to 1999
Richmond, VA 23298

Position: Assistant Professor (1989 to 1992)
Associate Professor (1992 to 1999)
Departments of Psychiatry and Psychology
Clinical Director, MCV Family Counseling Center
Director, Anxiety Disorders Program

Duties: Teaching responsibilities included supervision and didactic teaching of psychiatry residents, psychology interns, and medical students. Teaching areas included cognitive-behavioral treatments for mental disorders, particularly anxiety disorders and depression, and research design and statistical analysis. Clinical responsibilities included outpatient evaluation and therapy, primarily in anxiety, depression, and health behavior. Administrative responsibilities included Program Director for the Anxiety Disorders Program and Clinical Director of the MCV Department of Psychiatry Faculty Practice. As Clinical Director, responsible for a practice of over 50 faculty providers, performing quality assurance, outcomes assessment, facilities, fiscal, and support staff management, and liaison to behavioral health management organizations. Research areas included nicotine dependence, depression, and anxiety. Also served as ad hoc statistical consultant to various faculty and trainees.

Medical College of Georgia 1984 to 1989
Augusta, GA 30912

Position: Assistant Professor
Department of Psychiatry and Health Behavior
Director of Adult Inpatient Psychology Service

Duties: Consultant: VA Medical Center - Augusta
Teaching responsibilities included supervision and seminar teaching of psychology interns, medical students, and psychiatry residents. Clinical responsibilities included psychological assessment and treatment of patients on inpatient psychiatry and general medicine units. Research responsibilities included studies in the areas of depression, smokeless tobacco use, and psychosocial factors affecting physical illness in children and adults.

Awards and Honors:

| | |
|--|------|
| Psi Chi Award - Outstanding Psychology Major (JMU) | 1979 |
| Omicron Delta Kappa Leadership Award (JMU) | 1979 |
| Phi Kappa Phi Honor Society (JMU) | 1979 |
| Florida State University Graduate Fellowship Award (FSU) | 1981 |
| Outstanding Faculty Award/Psychology Training (MCG) | 1987 |
| Departmental Teaching Award - MCV Residents (VCU) | 1993 |
| Outstanding Psychology Faculty Award (VCU) | 1995 |
| Outstanding Psychology Faculty Award (VCU) | 1997 |
| NIMH Director's Award (Individual Achievement Award) | 2006 |
| NIH Director's Award (PROMIS Science Officer Team) | 2008 |
| NIMH Director's Award (Recruitment Milestone Reporting Team) | 2009 |
| NIH Director's Award (Enhancing Peer Review Team) | 2009 |
| NIH Common Fund Leadership Award (PROMIS Working Group) | 2011 |
| NHLBI Award of Merit (SPRINT Project Initiation) | 2011 |
| NCI Award of Merit (Gene, Environment, and Health Team) | 2012 |
| NIH Director's Award (ABCD Study Team) | 2015 |
| NIH Director's Award (PMI Leadership Team) | 2016 |
| NIH OD Honor Award (Precision Medicine Implementation Team) | 2016 |
| Obesity Society Pioneer Award for Excellence in eHealth/mHealth Research | 2017 |
| COSSA Distinguished Service Award | 2018 |

Editorial Service:

Associate Editor for Special Issue on Virtual Reality Technologies; *Journal of Diabetes Science and Technology*.

Guest Editor for Special Section on Methodologies for Optimizing Behavioral Interventions; *Translational Behavioral Medicine*

Grants and Contracts as Principal Investigator:

(Title, Year Awarded, Funding Agency, Direct Costs)

The Effects of Benzodiazepine Administration on the Behavioral Treatment of Panic Disorder (1990). A. D. Williams Research. \$6700.

Longitudinal Study of Smokeless Tobacco Quitters (1993). National Cancer Institute (R03CA59224). \$49,946.

Computerized Scheduling of Nicotine Nasal Spray (1999). National Institute on Drug Abuse (R43DA13062). \$110,822.

Computerized Self-help Treatment for Primary Insomnia (2000). National Heart Lung and Blood Institute (R43HL65893). \$110,288.

Computerized Scheduling of Nicotine Inhaler Use (2000). National Cancer Institute (R44CA80525). \$722,889.

Dietary Research Monitoring System (2001). National Heart Lung and Blood Institute (R43HL67613). \$131,175.

Computerized Drug Evaluation System (2001). National Heart Lung and Blood Institute (R43HL65107). \$127,385.

An Internet Site to Promote Empirically Based Practice (2001). National Institute of Mental Health (N43MH12041). \$93,457.

Self-help Smokeless Tobacco Cessation for Teens (2001). National Cancer Institute (R43CA84936). \$99,536.

Computerized SGR for Smoking Reduction (2001). National Cancer Institute (R44CA83451). \$555,181. (Supplement award of \$242,034).

Wireless Internet Application for Smoking Cessation (2001). National Cancer Institute (R43CA92892). \$167,950.

Using Handheld Computers to Modify Exercise Behavior (2001). National Institute of Nursing Research (R44NR04370). \$621,021.

Tobacco Free High Schools: A Student Marketing Approach (2001). National Cancer Institute (R43CA86540). \$112,767.

Improved Scheduled Gradual Reduction of Cigarettes (2001). National Heart Lung and Blood Institute (R44HL70328). \$640,334.

Community-based Automated Smoking Assessment (2001). National Institute on Drug Abuse (R43DA14730). \$118,580.

Computerized Scheduling of Nicotine Nasal Spray (2001). National Institute on Drug Abuse (R44DA13062). \$588,341.

Development of New Dissemination Tools for the Delivery of Empirically-based Psychosocial Interventions (2002). National Institute of Mental Health (N44MH12041). \$557,979.

Computerized Dosing of Teen Nicotine Gum Use (2002). National Institute on Drug Abuse (R43DA13849). \$143,498.

College Smoking Cessation via Wireless Devices (2002). National Cancer Institute (R43CA97692). \$135,372.

Interactive, Web-based Food Portion Tutorial (2002). National Institute of Diabetes and Digestive and Kidney Diseases (R43DK61079). \$118,195.

Dietary Research Monitoring System (2002). National Institute of Nursing Research (R44NR08442). \$596,646.

Medication Monitoring Field Evaluation System (2003). National Heart, Lung, and Blood Institute (R44HL065107). \$600,792.

Computerized Self-help Treatment for Primary Insomnia (2003). National Heart, Lung, and Blood Institute (R44HL065893). \$708,579.

Interactive, Web-based Computerized Food Portion Tutorial (2003). National Institute of Diabetes and Digestive and Kidney Diseases (R44DK061079). \$493,792.

SelfMon: A Researcher Configurable Self-Monitoring System (2003). National Cancer Institute (N43CN35152). \$66,550.

Web and IVR System for HIV Risk Screening and Prevention (2003). National Institute of Mental Health (N43MH32088). \$66,384.

Wireless SMS Delivery of Smoking Cessation Interventions (2004). National Cancer Institute (R43CA101343). \$98,115.

Community-based Automated Smoking Assessment (2004). National Institute on Drug Abuse (R44DA014730). \$499,558.

NRT Scheduled Dosing via Text Messaging (2005). National Institute on Drug Abuse (R43DA017993). \$119,135.

CERTAS – A Researcher Configurable Self-Monitoring System (2005). National Cancer Institute (N44PC54401). \$551,589.

Self-help Smokeless Tobacco Cessation for Young Adults (2005). National Cancer Institute (R44CA84936). \$608,612.

Configurable IVR System for Real-time Data Retrieval (2005). National Institute on Drug Abuse (N43DA57751). \$66,031.
